Suertia selects Kambi Sports Solutions for fully managed Sportsbook service

Kambi Sports Solutions, a leading Sportsbook supplier, is pleased to announce that it has signed a new two year agreement to deliver a fully managed online and mobile Sportsbook to Suertia Interactiva S.A. for the Spanish market.

The agreement with Suertia extends Kambi's portfolio of clients in the regulated Spanish market. Kambi is now providing its fully managed sportsbook solution to five licensed operators in Spain. The Sportsbook will be integrated with Mediatech Solutions S.L., a platform Kambi has already integrated clients to.

Suertia was founded by Eduardo Losilla, the well-known founder and CEO of quinielista.com, the most successful online website for the national sports pools in Spain, "La Quiniela". Suertia currently has approximately 10,000 points of sale in Spain that will be used for marketing and for driving player acquisition for Suertia's new online Sportsbook.
